

USEFUL INFORMATION

A SINGLE TICKET FOR ALL PUBLIC TRANSPORT

With one single ticket, you can have access to all public transport within Tarif Zone 10, covering the whole of Geneva. This includes trains, trams, buses, and lake shuttles. What's more, the new Léman Express train lines are accessible as well at no extra cost. Ticket prices remain at 3 francs for 1 hour of travel with a full fare adult ticket, or 500 francs for a full fare adult annual subscription.

DRIVERS AND THE LÉMAN EXPRESS

All stations are accessible by car, meaning you can either pick passengers up or drop them off. You can even use the Léman Express yourself by taking advantage of the car parks and P+Rs available for direct connections with the train. Holders of a P+R subscription or a daily P+R ticket can continue to travel throughout Zone 10, which covers the entire territory of Geneva, under the same conditions as at present. The canton has about 21 P+Rs and 9 Daily P+Rs.

COMBINE CYCLING WITH THE LÉMAN EXPRESS

In addition to the existing bicycle stations at Cornavin station, five new secure bicycle stations making up 3500 spaces have been added to the Lancy-Pont-Rouge, Lancy-Bachet, Geneva-Champel, Geneva-Eaux-Vives and Chêne-Bourg stations. They are all accessible through the Velocity application. You can also park your bike on outdoor sites near all the stations in the network. And with help from the free Geovélo application, use GPS to better plan your travels.

SUBSIDIES, ASSISTANCE AND SUPPORT FROM THE STATE AND YOUR MUNICIPALITY

Multimodality, i.e. the use of several modes of transport when traveling, is part of daily life for an ever-increasing number of Geneva residents. There is a very wide range of offers to make mixing up your travel easier, be it for business or for leisure. These include financial benefits in the form of subsidies or preferential tariffs offered by municipal or cantonal authorities.

HOURS

From 5:00 a.m. to 12:30 a.m. on weekdays, and 24 hours a day on weekends. During peak hours at the heart of the network between Annemasse and Coppet, six trains per hour and per direction.

DISCOVER A NEW WAY TO TRAVEL WITH THE LÉMAN EXPRESS!

Starting on 15 December 2019, Geneva and its metropolitan area will finally be able to rely on an urban and regional rail network, like so many other major Swiss and European cities. This ultra-modern cross-border network of 230 kilometres of lines serving 45 French, Vaudois and Geneva stations will make travelling in the region and in the heart of Geneva much easier.

The Léman Express will be an opportunity for every inhabitant of our canton to rethink the way they travel and make their journeys faster and more comfortable. This could be through combining different modes of travel, for example, via bicycle stations and car parks that will offer parking spaces with a direct connection to the train. Or it could be through combining various public transport systems, as with a single fare you can access the whole of Geneva, switching from tram or country bus line to train.

This new travel philosophy applies both to work commuters and to those travelling for leisure. Trains will run 24 hours a day on weekends and from 5:00 a.m. to 12:30 a.m. on weekdays between Annemasse and Coppet. Now you can go by train to the theatre, the beach, sporting events or even a ski trip!

"The Léman Express must bring about a change in our travel habits. We are doing everything we can to support and facilitate this evolution. The new regional rail network has the potential to reduce road traffic in our canton by 12%, much more than what we see in the summer. It gives us the opportunity to rethink mobility, to create a framework that is conducive to a high quality of life and respect for the environment."

This benefits both the public and our companies, which need to move their employees, equipment and goods smoothly to ensure everyone's prosperity. The Léman Express is an unprecedented opportunity to make our canton a more attractive and pleasant place to live, revitalizing Geneva and the entire region. »

Serge Dal Busco, State Councillor. Department of Infrastructure

LÉMAN EXPRESS

Vivons plus grand

DISCOVER THE LÉMAN EXPRESS

The Léman Express will be put into service on 15 December 2019, offering 230 km of railways serving 45 stations in the cantons of Vaud and Geneva and in the French departments of Ain and Haute-Savoie. In Geneva, no fewer than 19 stops and stations will be served by the Léman Express, making it the backbone of public transport both in our canton and throughout the entire region.

The train will as a result boost Geneva's public transport system and promote sustainable mobility. Above all, it is an unprecedented opportunity for the inhabitants of our region to rethink the way they travel, both for work and for leisure. In addition to saving time, the Léman Express will eliminate the border effect felt in our urban area and offer efficient and comfortable travel.

THE LÉMAN EXPRESS IS GOING TO BOOST PUBLIC TRANSPORT IN THE GREATER GENEVA AREA

IMPORTANT INFORMATION AT A GLANCE

Where can you safely leave your bike near the station? Which buses or trams should you take to get to the nearest station to your home or workplace? How much does a trip cost?

To answer these questions for all of the canton's inhabitants, the Department of Infrastructure has produced a series of 29 leaflets such as the one you are holding in your hand. They present the nearest or most easily accessible public transport station or stations for each sector of Geneva. All of these leaflets are available on our website lemanexpress.ge.ch

In the following pages, you will find information on travel times, ticket prices, station organisation and their surroundings. You can also find useful telephone numbers and websites to learn more about the new urban and regional train network that will be put into service on 15 December 2019, such as the many travel options it offers and to see how the Léman Express can improve your daily life.
