

What is differentiated traffic?

Since 15 January 2020, in the case of a pollution peak in Geneva, the most polluting vehicles are not allowed to travel in the centre of the canton between 06.00 and 22.00:

- the differentiated traffic zone in the event of smog covers the centre of the canton (excluding the motorway),
- only vehicles with a sticker permitted during the pollution peak can travel within this zone (the French CRIT'Air sticker is also valid).

How can I be notified?

Via the Air-Genève blog or the Air2G2 app, you can be informed in advance of all the measures.

Exceptions, criteria for the Stick'AIR stickers, FAQs... answers to all your questions can be found at: stickair.ge.ch

A customized response by phone is also available:

Change is in the air!

Change is in the air!

Stick'AIR scheme

Catégories autorisées in the center of the canton (06.00-22h.00)

No pollution peak

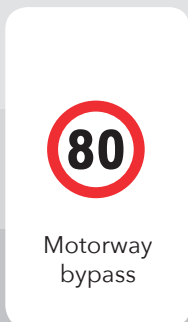

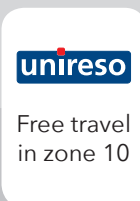

1/3 Activation

2/3 Warning

3/3 Emergency

How can I obtain a Stick'AIR sticker?

You can purchase a Stick'AIR sticker for **5 francs** (cost price):

- online at stickair.ge.ch (plus p&p)
- at petrol stations and garages throughout the canton
- at the Fondation des parkings
- at the Office cantonal des véhicules

To determine the appropriate **Stick'AIR category**, refer to your **vehicle registration document** and visit

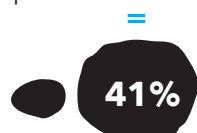

stickair.ge.ch

A very effective measure

Up to **-79%** fine combustion particles from traffic

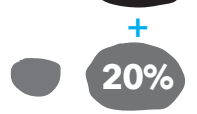

1/3 Activation

and uncategorized

Differentiated traffic makes it possible to greatly **reduce** pollutant emissions while only affecting a few drivers!

2/3 Warning

3/3 Emergency

77%* of vehicles are never restricted

Alternatives

You could opt for:

- **soft mobility**
- car sharing or **carpooling** (in a vehicle displaying an authorized Stick'AIR sticker)
- **public transport** - free in Geneva (zone 10) during the warning (2/3) or emergency grades (3/3)
