

What is differentiated traffic?

In the event of a pollution peak in Geneva:

- The most polluting vehicles are not allowed to travel in the centre of the canton between 06:00 and 22:00.
- Only vehicles with a **sticker** permitted during the pollution peak can travel within this zone.
- The French **CRIT'Air sticker** is also recognised.

How can I be notified?

You can be informed in advance of all the measures via:

✓ the **Air2G2** app

✓ Stick'Air e-mail **alerts**

Exemptions, Stick'Air stickers, answers to all your questions **can be found at:**

WHAT YOU NEED TO **KNOW**

STICK'AIR SCHEME

In the event of an air pollution peak, Geneva activates a differentiated traffic scheme **to protect the health of the most vulnerable people.**

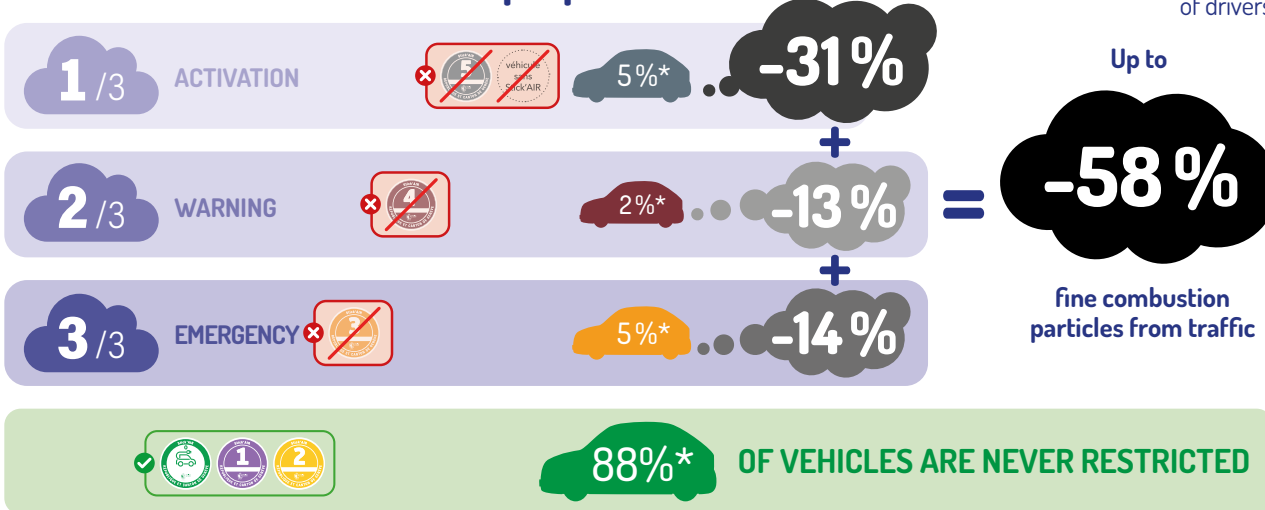

STICK'AIR SCHEME

Apart from certain exceptions, all motorised vehicles are subject to the differentiated traffic regulations, whether registered in Geneva, in another canton or abroad.

Level	Categories authorized in the center of the canton (06.00-22.00)	unireso Free travel in zone 10	Motorway bypass 80
NO POLLUTION PEAK			
1/3 ACTIVATION			
2/3 WARNING			
3/3 EMERGENCY			

A very effective measure to protect the health of the most vulnerable people

Differentiated traffic makes it possible to significantly **reduce** pollutant emissions while only affecting a small number of drivers!

How can I obtain a Stick'AIR sticker?

You can purchase a Stick'AIR sticker for 5 francs (cost price):

- online at stickair.ge.ch (plus postage)
- at petrol stations and garages throughout the canton
- at the Fondation des parkings
- at the office cantonal des véhicules

To determine the appropriate Stick'AIR category, refer to your vehicle registration document and visit stickair.ge.ch

You could opt for alternatives:

soft mobility

car sharing or carpooling
in a vehicle displaying an authorized Stick'AIR sticker

public transport
free in Geneva during levels 2/3 and 3/3
