

COVID-19 – autumn-winter 2022-23 booster vaccination in a pharmacy or doctor's surgery (GP) Online registration with onedoc

In order to make an **appointment at a pharmacy or doctor's surgery (GP)** for a COVID-19 booster vaccination autumn-winter 2022-23, you have to use the **onedoc platform**.

onedoc is an internet platform that allows you to make an appointment online with a doctor, dentist or therapist in Switzerland for yourself or a family member.

To use onedoc, you need to create a personal account. This requires a mobile phone number and an email account.

If you do not have a mobile phone number or an email account, you can get help from someone who already has an onedoc account and can register you from his or her account.

Useful tip

To ensure that the registration process works properly, it is recommended to test several updated web browsers. The quality of access to the registration platform may also vary, depending on the type of computer or tablet used.

You have chosen a pharmacy (or a GP) and have been directed to the onedoc platform.

The screenshot shows the onedoc platform interface for Pharmacie Cité Universitaire. The header is green with the onedoc logo and navigation links. The main content area is divided into sections: Specialties, Map and access information, and Presentation of the healthcare professional. A purple window titled 'Book your appointment online' is overlaid on the right side, prompting the user to fill in the following information:

- 1. Specialty: A dropdown menu labeled 'Select a specialty'.
- 2. Pick a time slot: A calendar view showing dates from Saturday 15 Oct to Tuesday 18 Oct. Below the calendar, there is a button labeled 'Please select a specialty to continue'.

In the purple window click on "Book your appointment online"

Select a specialty : **"COVID-19 Vaccination"**

Select a visit reason : **"Moderna COVID-19 Booster"**

Pick a **time slot**
